

# UAMS HAS THE BEST NURSING RESOURCES

**At UAMS we know that nurses can find solutions to just about anything!**

More than nine years ago, the Resource Nurse Program was created to focus nursing ingenuity and passion on improving patient outcomes.

Today, we have 37 Resource Nurses directing their efforts on: Infection Control, Wound Care, Pain Management, Safety, Retention, Informatics and Value Analysis. Each Resource Nurse completes a nine-month rotation during which they lead a quality improvement project designed to improve outcomes in their area of focus.

**If you want to have a career where you are empowered and valued, consider UAMS Nursing.**

Visit [nurses.uams.edu](http://nurses.uams.edu) or call 501-686-5691.
